

# PepeQ Meme Coin

## White Paper

### Abstract

PepeQ is a pioneering meme coin that fuses the allure of cryptocurrency with the profound insights of philosophy. Inspired by the curious learner PepeQ and his sage mentor SOQRATES, this coin is crafted to enlighten and involve the community in a quest for financial wisdom and illumination.

### Introduction

PepeQ carves a unique niche in the saturated cryptocurrency market as a beacon of knowledge and interaction. It draws from the deep well of classical philosophy to

navigate the intricate world of finance.

### The Philosophy of PepeQ

The essence of PepeQ is encapsulated in the allegorical interactions between the student PepeQ and his mentor SOQRATES. Their dialogues are the cornerstone of PepeQ's narrative, nurturing a community that cherishes curiosity, learning, and analytical thinking.

### Problem Statement

The realm of cryptocurrency can appear labyrinthine and daunting. PepeQ addresses the imperative for a currency that elucidates the concepts of wealth and value beyond mere transactional utility.

### Solution: The PepeQ Meme Coin

PepeQ introduces a novel approach to cryptocurrency. It leverages storytelling and interactive elements to demystify the complexities of blockchain technology and economics, rendering them accessible to a wider audience.

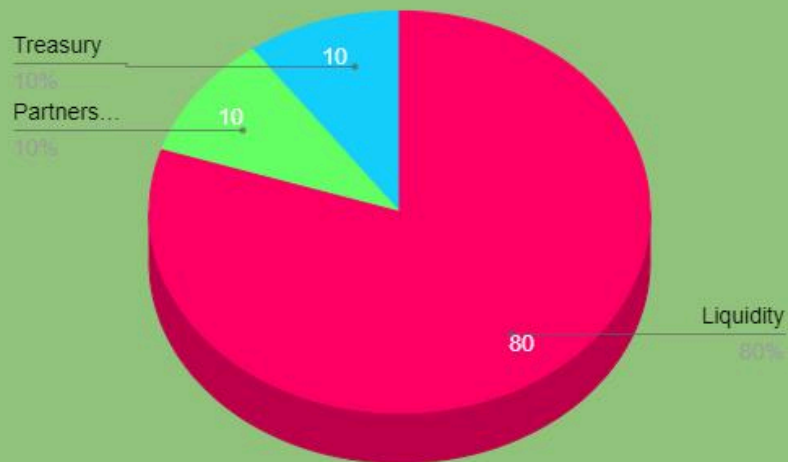

## Technology and Tokenomics

PepeQ is constructed on a secure and transparent blockchain infrastructure. The tokenomics are meticulously designed to sustain the ecosystem, with a total supply of 17 trillion PepeQ coins and strategic allocations for liquidity, and CEX listings.

All of what we do with the coins will be documented on the blockchain.

### Tokenomics

- **Total Supply:** 17 trillion PepeQ coins
- **Liquidity:** 80% Liquidity
- **Partnerships, Teams and CEX Listing:** 10%
- **Treasury:** 10%

## Liquidity

The liquidity is set at 80 percent of the total supply. This is used to make sure there are enough coins to buy and sell on Uniswap upon launch.

## Partnerships, Team and CEX Listing

The 10 percent of total supply is for partnerships, team and CEX listing. As the value grows this will be valuable to get us listed on some tier 1 exchanges in the future. Also if influencers or contributors want to partner with us then we will allocate some of the coins to them.

The coins will be locked up for 117 days to not affect the volatility of the early coins and project. After that the coins will be released and documented on the blockchain.

## Treasury

The treasury will be 10 percent of total supply

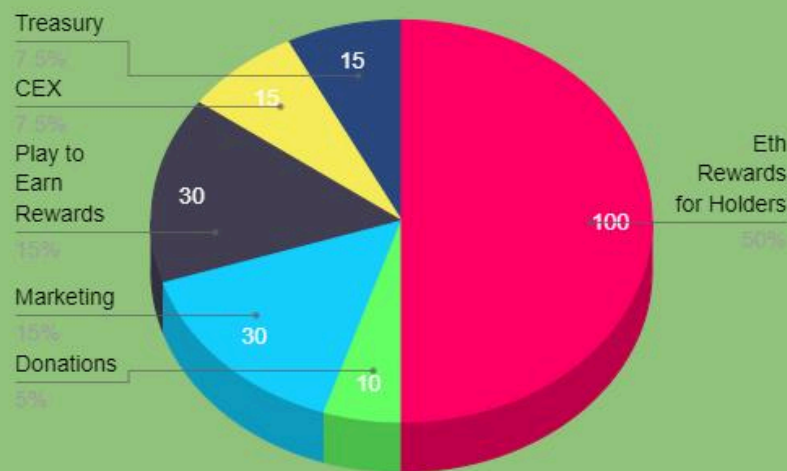

As stated on the website and in the white paper we are going to some Learn to Earn activities. This will include quizzes, activities and spin to win prizes. This has been intended to help engage the community and keep everything fun while visiting the world of PEPEQ.

The liquidity along with the tax rewards should inspire the community to learn as well as have some fun.

## Tax structure

There will be a Buy & Sell Tax of 2% on all transactions for PepeQ. Here is a breakdown of where the tax is going to be spent.

All of what we do with the rewards will be updated on the blockchain

## Eth Rewards for holders

The PepeQ coin is based on the Base blockchain protocol. The founders want to promote community growth and awareness in our project. That is why we are giving holders of our coin 1 percent rewards of all the buy and sell transactions.

The amount is proportional to the total supply of coins in possession at any given time. The rewards will be given in the Base protocol in Eth.

## Donations

Our project is designed to promote freedoms and the basic rights that humans should have. As we grow our donations and the reach we will have also grown.

We are going to donate .1 percent of all tax to such causes around the world to help bring a better world and increase freedoms for all.

## Marketing

In order to spread the word and keep the project growing we are allocating .3 percent of all tax for such activities. This can include ads, marketers, social media, influencers and other activities to help grow the brand.

## Play to Earn Rewards

This is a feature where quizzes, learning activities will be created to engage a person in fun learning activities about philosophy and crypto. We have .3 percent sent aside from the tax. This will help engage people and make learning fun.

## CEX

We want to be able to list PepeQ on as many listings as possible. We start with the smaller exchanges and eventually list tier 1 exchanges such as Binance or KuCoin. We have allocated .15 percent as well for the listing fees and cost associated with exchanges.

## Treasury

This is for the founders of the coin that have risked time and money to help create the coin for the community to enjoy. We have .15 percent set aside as well.

The more we make the more you make and we are all in this together.

# Roadmap

The road map will first focus on PEPEQ and his adventures. As he meets new characters and learns more about the world and philosophies new adventures will await him as well. These people that he meets will each have a unique story to tell and have a new meme coin to share as well.

The roadmap will be in two parts. The first section will be focused on PEPEQ and bringing PepeQ to life and getting him started on his adventure. The is the introduction phase as well.

The next part will be focusing on his adventures and getting his meme coin philosophy from the people that he meets.

PepeQ will be brought to life in 4 phases:

**Phase 1**

- ✓ Launch
- ✓ DEX listings
- ✓ 1,000+ holders
- ✓ PepeQ community takeover

**Phase 2**

- ✓ Pre-order PepeQ's Physical Coin Collectibles
- ✓ PepeQ normie takeover
- ✓ Strategic partnership
- ✓ 10,000+ holders

**Phase 3**

- ✓ Tier 1 exchange listings
- ✓ PepeQ official merch
- ✓ 100M+ market cap
- ✓ 50,000+ holders

**Phase 4**

- ✓ PepeQ's NFT collection
- ✓ 1B+ market-cap
- ✓ 100,000+ holders
- ✓ PepeQ world domination

The road map listed above for the introduction of PepeQ and what he is all about. Below is the path the other characters will take and places they will visit. As the characters are introduced new expanded roadmaps will unfold

- **Book One: PepeQ's Quest into the Unknown** - The inaugural adventure, setting the stage for a series of explorations.
- **The PepeQ Series** : A collection of 5 books to be released throughout 2024 each delving into different paths of the PepeQ universe.
- **Parallel Journeys** : In 2025, the narrative expands, exploring various realms and introducing the community to the wisdom of great historical figures, from philosophers to scientists, military strategists like Sun Tzu, and visionary leaders.
- **Philosophical Adventures** : Each book serves as a portal to a parallel universe where the Pepe people bring to life the knowledge of the past, applying it with sound logic and philosophy to address today's challenges.
- **Continued Legacy** : Beyond 2025, the project will continue to evolve, following the ever expanding roadmap of PepeQ's adventures that challenge the mind and inspire the spirit.

## Listings and Exchange Progression

PepeQ will initially launch on the Base platform, part of the Coinbase ecosystem, followed by launches on the Solana and Ton Platforms platforms. The progression of listings will include:

- Coinmarketcap, DEX tools and other smaller exchanges
- Listing on tier 2 exchanges and other platforms as the growth demands

## Use Cases

Beyond transactions, PepeQ serves as an educational platform, rewarding users for engagement and learning.

The PepeQ story is designed to bring the offline with the online. We are planning to have physical coins and merchandise to bring the story and the characters to life.

## Team: The Meme Team

The Meme Team is led by a visionary known as the Meme Coin Philosopher, whose strategic foresight and philosophical approach to cryptocurrency have been instrumental in shaping the direction of PepeQ. This leader, alongside a diverse group of crypto veterans and talented developers, brings a wealth of experience and enthusiasm to the project. Their collective expertise and innovative spirit are the driving forces behind PepeQ's development and success.

## Partnerships and Collaborations

Strategic partnerships have been forged to amplify PepeQ's reach and credibility within the crypto sphere. We will have partnerships with real world products like coins and other things. We are going to spread our awareness where it best fits the brand.

## Legal and Regulatory Compliance

Failure to comply with applicable laws, regulations, or licensing requirements could result in legal liabilities, fines penalties, or regulatory enforcement actions. Compliance obligations may vary by jurisdiction and evolve over time, posing challenges for the project's operations and expansion.

## Risk Factors

Cryptocurrencies are known for their extreme price swings, which can lead to significant gains or losses in a short period of time. Always do your homework when investing and never invest more than you can afford.

## Conclusion

The conclusion reiterates PepeQ's dedication to fostering an informed community and its vision for the future
